Subject: Recommendation Letter

To Whom It May Concern:

Network IT Solutions Qatar W.L.L Company was contracted by T-Systems and is engaged with us in our QAPCO LDPE3 project. Network Company supplied and installed our IT and Telecom Network beginning February 2010 such as Servers, Switches, Workstations, Printers, Video Conference, Plotter, etc. to fully operate our construction site offices.

Since February 2010 till date, Network Company is supporting us once a week to maintain a functional operating IT and Telecom Environment.

We are satisfied by the service, commitment and professional performance of Network Company. We would recommend Network as an IT supplier, installer and maintenance contractor.

Kind regards
